

PUPIL PREMIUM 2019/2020 – SCHOOL STRATEGY

Review of expenditure 2018/19				
Previous Academic Year – Planned Budget £10,220				
Quality of teaching for all				
Desired outcome	Chosen action/approach	Impact:	Lessons learned (will this approach continue)	Cost
Improve Maths skills, reasoning and arithmetic skills across school. Improve specific targeted English or Maths skills as highlighted and discussed with the class teacher.	1:1 or small group intervention for Ma from data analysis of PP children and targeting areas for development Class teachers know PP children and make suitable adjustments to Ma provision	95% of children achieved ARE in Ma which included PP children. PP showing good progress in English skills.	This approach will continue	£6,487.36
Improve Maths skills, reasoning and arithmetic skills across school. Resources for PP children	Books and programmes for the iPad were purchased to help with targeting areas they need to	PP progress meetings with class teacher and separate sessions with PP lead with additional resources ensured children made at least expected progress and any issues were identified and discussed. In this way we have ensured that PP children make rapid progress and are closing	This approach will continue	£600 Release time - £1000
Improve the emotional well-being of identified pupils to enable effective learning to take place.	1:1 weekly or 2-3 times weekly/ counselling session over a course of 6 weeks or longer if required. Children who require further sessions and specialist support should be referred to the schools SEN coordinator. Parents informed where appropriate and signposted to additional outside agencies for further support.	Children feel more confident in voicing their concerns and implement coping strategies to help control/overcome anxieties. Children can better recognise triggers for anxieties and are beginning to find ways to work around these. Children's mental health is improving and they are happier and more confident in and outside school. There has been a reduction in anxiety/emotional wellbeing related incidents.	This approach will continue	£1,596.77
Provide extra-curricular activities for the children to enhance their opportunities to access sport/further learning/social skills	All PP were encouraged to attend one club was funded. Year 6 residential trip funded and additional supporting adult attended.	All PP were encouraged to attend one club was funded. All children able to fully access all activities on trips and residential.	This approach will continue	£600
Total Budget cost				£10,284.13
